TANGIBLE HIGH STANDARDS.

Fittings

# LOVE FOR DETAIL

## Selected Fittings at Bod'or

High-quality doors, surfaces and systems – our products stand for clear values. This is why we also have fittings for our doors by the best: FSB, Olivari and Formani. Suitable for the highest standards in design and quality. With perfect functionality. Our focus: Door handles and pulls as an additional stand-alone facet within the interior. The fittings also enjoy the same degree of respect during our careful installation. Everything from one experienced source. And with great attention to detail. In particular in the event of demanding, flush solutions.

Differences in colour from the original can result due to the printing technology.

**Standard:** rose overlying

**Extra:** rose flush

## SUSTAINABLE LEVEL

Installation rose overlying or flush.

**Standard level:** All door handles or grips selected for the door are surface-mounted.

**The extra level:** Flush mounting upon request.

FSB	All fittings possible in overlying and flush
Olivari	All handles with rose overlying. All shell handles flush
Formani	Only model One by Piet Boon with rose flush

## SIMPLY THE BEST

Our partners for fittings:

### FSB

The German manufacturer stands for aesthetic and functional high quality system solutions for doors worldwide. Architectural trends are served perfectly with the appropriate fittings by FSB.

FSB at Bod'or: Door handles starting on page 8 and shell handles on page 18

### Olivari

The Italian company has made a name for itself with first class quality and excellent production. And through its collaboration with designers such as Daniel Liebeskind and Piero Lissoni.

Olivari at Bod'or: Door handles starting on page 10 and shell handles on page 20

### Formani

Well known Dutch designers such as Piet Boon and Jan des Bouvrie collaborate with the company. The innovative fittings are represented worldwide in interior design concepts.
