

Transparency – Design Lacquer

Quadrant – Design by Jam des Bouvrie

Product information

Flush interior doors with a factory finished lacquered surface and invisible magnetic closure (Magnetec) . Quadrant doors are manufactured in our factory where modern technology is combined with traditional craftsmanship. The doors are designed for rooms with relative humidity of 30% - 55%. Quadrant doors are supplied together with one of the Bod'or doorframes, sliding systems or pivot systems.

Door systems

Transparency doors are supplied together with one of the following doorframe systems, sliding systems or pivot system..

Cube Doorframe: Cube on the wall, Cube flush with the wall with 6 mm or 12 mm shadow gap (also reverse) , Cube SF, Undercover 25 (also Reverse)
 Sliding system Ceiling*, Cube in the wall*
 Pivot System TURN*

*Quadrant doors with a sliding or pivoting system may result in a different optical image
