

On Thursday 12 March 2020, after consultation with the Dutch National Institute for Public Health and the Environment (RIVM), the Dutch government announced various decisions. One of them is that for the purpose of containing the spread of the coronavirus, social contact must be avoided as much as possible.

These new measures will remain in effect until further notice.

Restrict physical appointments & company visits

In connection with the announced measures and our objective to deal responsibly with our employees, customers, suppliers and other relations, Bod'or decided that as of Monday 16 March, physical appointments and company visits will be limited as much as possible and where possible to switch to telephone or digital contact.

Do you already have an appointment with Bod'or?

Your contact person will get in touch with you by phone or email. Any (necessary) physical appointments already made will be discussed with you in advance, in order to make a correct assessment for the need for a physical visit or contact. When we meet, we will for now on not shake hands and adhere to the hygienic requirements.

Should you have symptoms of the common cold (sneezing, coughing, sore throat or fever), we will consult with you to change the physical appointment to a telephone or digital interaction or reschedule it.

We follow all the guidelines issued by RIVM and the Dutch government and we keep a close eye on new announcements. In addition, Bod'or has taken extra preventive measures internally for its employees, which are supervised by a special Corona Project Team.

This is how we try, together with you, to take care of everyone's health and can — for now — continue to ensure our continuity and business together. We will inform you of any changes in our measures through our website.

We ask for your understanding and cooperation.

Kindest regards,
Team Bod'or Export
